a When the chemistry starts
b How fast it would self-heat
c With the reaction heat (Stage 2)
Time to 0.15 K/min (s)
Busbar conductance (mW/K)
37.9 s
11.5 s
Kinetic self-heating rate (K/min)
Time (s)
10
1
0.15
Temperature (C)
internal-short band
Lumped node
Resolved mean
Resolved hottest node
a: only the hottest node starts
a: 33.2 kJ
a: 21.5 kJ
c: with the reaction heat
c: without (archived)
